

Online Banking Solution Selection

Selecting a new online banking system, bill payment, personal financial management, online statements or other online banking technology solution is an obvious place to use Pearrari Solutions services to accelerate your process, keep it on track, and reduce the risk of missing key information in your research.

Wield our in-depth knowledge of online banking technology solutions and vendors to assess your current solution, complete a system search, and negotiate your solution contract. We'll help you separate fact from salesmanship and get the right information to make the selection that best serves your organizations needs.

An online banking system search with Pearrari will rapidly get you the key information you need to understand and effectively weigh your alternatives. Pearrari Solutions will help you with any/all of the following according to your preferences:

- Help you assess and weight your organization's unique needs
- Present the relevant vendor and solution information to facilitate pre-screening
- Customize an effective RFP document
- Administer the RFP process
- Coordinate and evaluate vendor demonstrations
- Compile a Final Bid Analysis
- Facilitate decision-making
- Understand pricing systems, options, and how flexible these generally are
- Facilitate negotiation with your preferred vendor
- Prepare a Professional Executive Summary Report (suitable for presentation to your Board of Directors, auditors, and regulators) documenting the quality and thoroughness of your due diligence
- Facilitate implementation planning and execution to keep your implementation on track
