FOR IMMEDIATE RELEASE

Perrari Solutions Inc. Launches Credit Union Consulting Practice

DOWNINGTOWN, PA – September 12, 2006 – Perrari Solutions Incorporated, a technology consulting firm, announced it will offer a suite of technology consulting solutions for credit unions. Perrari aims to facilitate technology implementations and help credit unions enhance middle- and back-office operations to maximize member value.

Perrari's credit union solutions include:

- Implementations, Project Management & Staff Augmentation
- Consumer Lending System Review
- Indirect Lending System Review
- On-line Lending Market Analysis
- Technology Solution/Product/Vendor Selection

"It's a natural next step for us," said Randall Pearson, Perrari's Managing Principal Consultant. "I was a Vice President at USERS Incorporated (a credit union core processor) for more than five years. My understanding of and affinity for credit unions, and specialty knowledge of consumer lending solutions are the initial basis for this move. However, we expect to continue to grow the practice and make alliances that benefit our customers."

About Perrari Solutions Inc.

Perrari Solutions Incorporated provides a variety of solutions and professional services to credit unions and software companies in the United States. Headquartered in Downingtown, PA, Perrari Solutions can be found on the Internet at www.perrari.com.
